# EVO Visian ICL

## Implantable Contact Lens

Nothing is removed so no major healing or adaptation is required. 5 minutes is all that is needed per eye. Over 1,000,000 ICLs implanted worldwide since 1991.

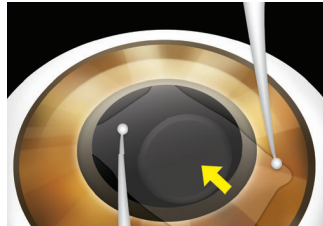

### Procedure

A 3mm Incision will be made on the cornea

The ICL Lens is inserted into the space between the iris and your natural lens

The ICL will then be adjusted into the right position

### Other Key Benefits

-  **Biocompatibility**  
Made of collagen based material naturally accepted by our body
-  **High Range of Correction**  
Treats up to -20.0 diopters, while cornea based laser surgeries are limited for high powered patients
-  **Predictable Results**  
No adaptation as nothing is removed. Enhancement in less than 0.2% of cases!\*
-  **Permanent yet Reversible**  
While designed to be permanent, it can be removed and/or replaced if necessary
-  **Small Wound Size**
-  **Excellent night vision**
-  **Safe**
-  **Quick Recovery Time**
-  **UV Protection**
-  **Flapless**

\* as per VISTA current surgical records

### Pricing

Type	Per Eye (RM)	12 Months 0% Interest Ezpay (RM)
ICL	<b>7,998</b>	22/day
ICL Toric (Custom Made)	<b>9,998</b>	28/day

Freeing your vision starts from **ADD [+]** or **Remove [-]**?

**ADD**

## EVO Visian ICL

**DOES NOT REMOVE anything from your eyes. Just add a lens to help you see.**

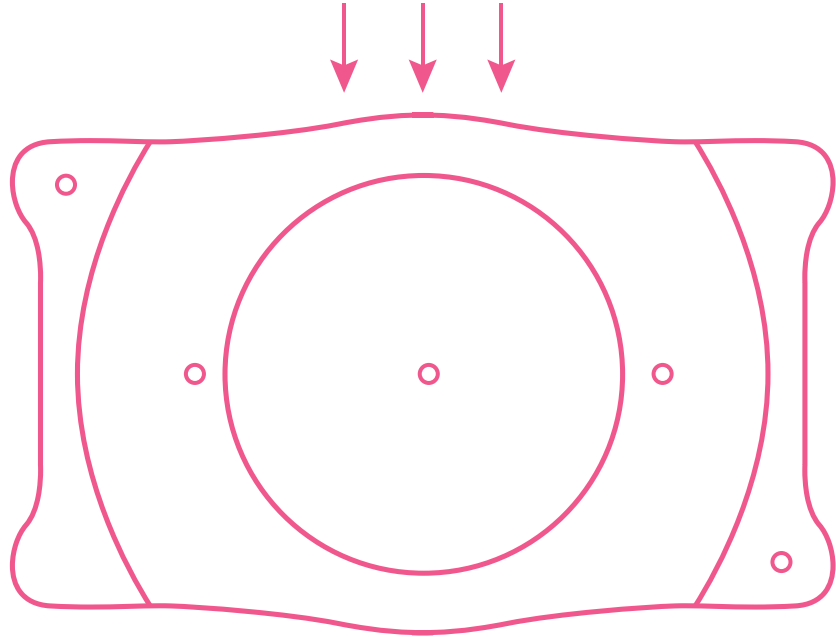

**NOTHING IS REMOVED FROM YOUR EYE**  
No tissue is permanently removed from your eyes. Your cornea stays the same!

**NO DRY EYES**  
As nothing is removed from your cornea, no tear nerves are broken.

**GREAT VISION ALMOST INSTANTLY**  
No tissue removal means no corneal haze and the eye adapts quickly.

**REMOVE**

## iLASIK

**Uses advanced diagnostic tools and lasers to customize treatment for each individual eye.**

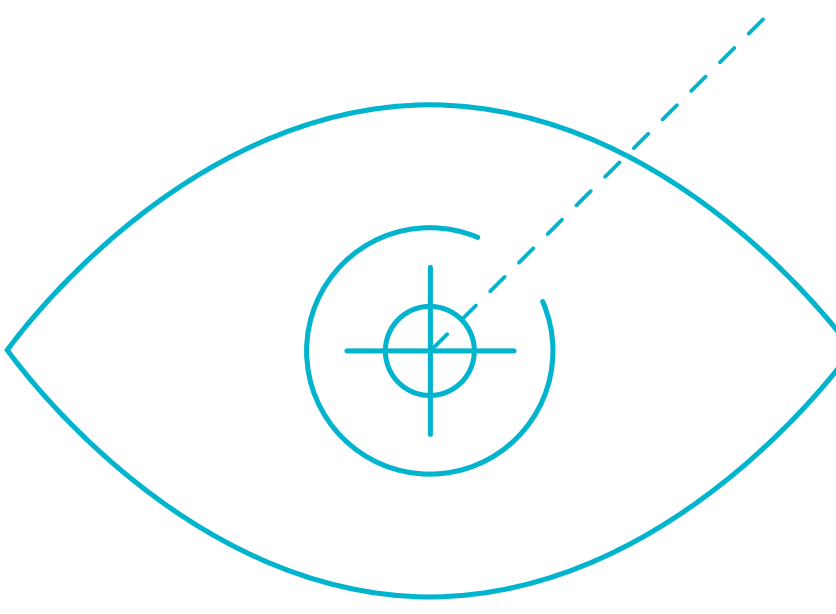

**INDIVIDUALIZED TREATMENT**  
Advanced 3D Wavefront Treatment reduces imperfections on your eye that glasses, contacts or standard laser treatments can't.

**PROVEN: 18,000,000 DONE**  
Over 18 millions procedures performed worldwide since 1991.

**SAFETY & ACCURACY**  
Eye Tracker with Iris Registration follows and compensates for eye movement during surgery to ensure accuracy and reduces errors during the treatment.

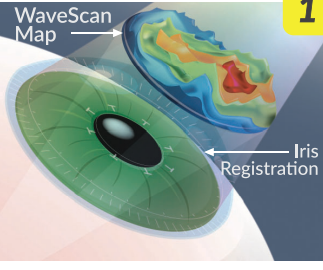

# iLASIK

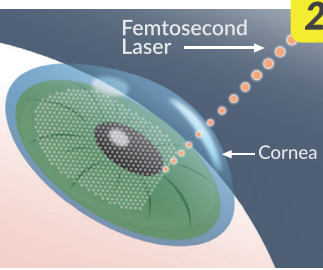

## The Advance Custom LASIK Platform

iLASIK is a No-Blade laser procedure 100% customized to the unique characteristics of each eye. Unlike standard or lenticule procedures, iLASIK not only corrects your shortsightedness and astigmatism, but also vision imperfections which includes reducing glare & halos!

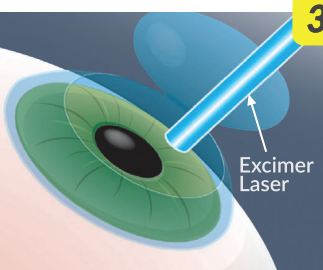

### Procedure

**Individualized Vision Profile**  
Wavefront technology using the iDesign is used to obtain a 3D map of each eye for a customized treatment of the visual imperfections

**Personalised Corneal Flap**  
A femtosecond laser is used to create a corneal flap

**Custom Laser Vision Correction**  
Advanced CustomVue treatment is used to correct your vision

### Other Key Benefits

-  **25x Precision**  
The iDesign allows for 25x high precision than conventional measurements
-  **98.3% Achieve 20/20 Vision**  
Results of clinical trials conducted by the U.S FDA (Food & Drug Administration)
-  **Potentially Better than Glasses**  
Glasses, contacts or lenticule extractions treat only shortsightedness or astigmatism but imperfections on your eye that causes poor night vision, glare & haloes, and contrast among others
-  **Customized Treatment with 5X Resolution**  
The 3D wavefront map captured by the iDesign allows for the laser to treat imperfections in your eye with 5X the resolution

### Pricing

Type	Per Eye (RM)	12 Months 0% Interest Ezpay (RM)
iLASIK (with astigmatism)	<b>5,998</b>	17/day
